MODERN SILVER COINAGE 1982

THE SILVER INSTITUTE
1001 Connecticut Ave., N.W., Washington, D.C. 20036 U.S.A.

Introduction

Modern Silver Coinage—1982 provides complete information on all silver money issued in the calendar year 1982.

The statistics have been verified by the monetary authorities and are the result of extensive contacts and consultations with ministries of finance, central banks, government and private mints, and numismatic experts throughout the world.

Physical characteristics of coins are given in millimeters, grams and troy ounces, for which the equivalents are shown below.

1 millimeter	= 0.03937 inch	1 troy ounce	= 1.097 avoirdupois ounces
1 gram	= 0.03215 troy ounce	1 troy ounce	= 31.1 grams
1 troy ounce	= 480 grains	1 million troy ounces	= 31.1 metric tonnes

The first pages of this report provide a Summary showing the number of issues, the face value of each silver coinage issued, the amount of pure silver used for coinage in each issuing area, and the amount used worldwide. Pages following the Summary are alphabetically arranged by geographic area. These pages describe in detail every silver issue in 1982, with calculations carried to the fourth decimal.

Silver Coinages described in this book are money, denominated by the issuing authority in units of local currency or in troy ounces of pure silver content.

Number of Coins Issued refers to the number which became money in the calendar year 1982, with the following exception: if an issuing authority's coin accounting system is only on an issue basis and not on a calendar year basis, then the Official Limit (maximum authorized mintage) of the issue is shown and so noted.

Silver Medals and Medallions not issued as money are not included in this compendium.

The preparation of this study has been made possible only by the generous cooperation of mint directors around the world, the governors of central banks, ministers of finance, economists and numismatic experts who have contributed liberally of their time and energy for the realization of Modern Silver Coinage—1982. We gratefully acknowledge their invaluable aid.

How To Purchase These Silver Coins

The 275 silver coinages issued in 1982 were struck by 34 different mints. In this book, above the description of each coinage issue, is the full name and address of the mint which produced it.

Information on how to purchase these coins may be obtained from coin dealers, or by writing to the mint which produced them.

Summary of Silver Coinages—1982
